Arizon Companies Awarded One of the Fastest-growing Companies in America
Arizon Companies Listed on Inc.'s 5,000 Fastest Growing Private Companies

St. Louis MO--Arizon Companies recently received an award from *Inc.com* as one of the country's fastest growing companies. The award was presented at the annual Inc. 500/5000 Conference and Award Ceremony in Chicago, Illinois. To qualify for this prestigious award, companies had to be U.S.-based and privately-held, independent companies as of December 31, 2006, along with other financial criteria provided by an Independent Certified Public Accounting Firm.

Arizon Companies, headquartered in St. Louis, Missouri, is a part of the Midwest region which leads the list of United States regions with the fastest-growing companies in the nation. The largest business category in Inc.'s Top 5,000 is Construction, with 561 of the fastest-growing companies in this category. The second largest business category, of which Arizona Companies is a part, is Manufacturing, with 515 of the fastest-growing companies in America.

"The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy—the entrepreneurial part," said Inc. 5,000 Executive Jim Melloan. "Taken as a whole, these companies represent the backbone of the U.S. economy."

Former President William Jefferson Clinton was the featured speaker at the Inc. 500/5000 Conference and Award Ceremony held recently in Chicago, Illinois, addressing a crowd of more than 1,000 in attendance. Half of the attendees represented CEOs from both the Inc. 500 and Inc. 5,000 lists of the nation's fastest-growing private companies. The three-day event featured prominent business leaders who shared their success stories, dispensed advice and provided inspirational insights.

Arizon Companies, one of the fastest-growing private companies in America, manufactures and installs three unique, industry-leading product lines: Johnson Air Rotation® and Make-Up Air Systems, MarCraft® Custom Air Handling Systems and Arizon® Air, Frame and Tension Structures. To learn more about Arizona Companies—or any of its product lines—visit www.arizoncompanies.com.
